PROFILE

I'm a second-year Software Engineering student at Manchester Metropolitan University with a solid foundation in programming, data analysis, and web development. I've also had the opportunity to lead and collaborate with teams, managing projects and coordinating tasks to meet deadlines. I'm passionate about problem-solving and continuously looking for opportunities to learn and grow. I'm eager to take on new challenges and contribute to a team where I can further develop my technical and leadership skills.

EXPERIENCE

Eventitude – Event Management Platform

I built **Eventitude**, a full-stack web development project that allows users to **create an account or log in** to manage events. Once signed in, users can **create, update, and delete their own events**, as well as **register for events hosted by others**. To make event browsing easier, the platform includes **filters based on time, title, and other criteria**.This project gave me hands-on experience with **user authentication, CRUD operations, and data handling**, while also strengthening my skills in **front-end and back-end development**.

Web Payment Portal – E-commerce Payment System

I developed a **web payment portal** that mimics the payment process for an **e-commerce website**. The project simulates a complete checkout experience, allowing users to **enter payment details, process transactions, and receive payment confirmations**.This project helped me understand **payment workflows, transaction handling, and security considerations** in web development.

Student Recipe Finder – Team Project

I led a team in developing a **website that helps university students find affordable recipes** based on their budget and ingredients. As **Team Lead-**, I managed tasks, coordinated the team, and ensured smooth collaboration. This project enhanced my **leadership, project management, and web development skills**, while also improving my ability to balance technical and team responsibilities.

EDUCATION

Sep 2023 — Jun 2026

BSc (Hons) Software Engineering, Manchester Metropolitan University   Manchester

(Working-toward)

Sep 2021 — May 2023

BTECH, SIXTH Form Bolton College

SKILLS

Data Analysis	Skillful	Front End Development	Skillful
Team Management	Experienced	Backend Development	Skillful
Communication Skills	Expert	Time Management	Experienced
Problem Solving	Experienced	Critical Thinking	Experienced

HOBBIES & INTERESTS:

- **Travelling:** I enjoy travelling and exploring new places, as it allows me to experience different cultures and broaden my perspective.
- **Exploring Technology:** I'm passionate about technology and love keeping up with the latest gadgets and innovations.
- **Reading:** Reading is something I really value, especially books that help me learn more about self-improvement, technology, and new ideas.
- **Trading;** I've a huge interest in trading and exploring how financial markets work and learning new strategies.
